

SoulSpark7 LLC

Consent Form

I, _____, the undersigned, understand that the “spiritual healing art” methods employed by SoulSpark7 LLC and/or its affiliates, a Utah limited liability company, and or/its personnel, including, but not limited to, Lisa StaAhna Ross, Katie Jo Welch, Tru Eastman, Debbie Autumn Jensen, its Managers et al. (collectively SoulSpark7), are gentle and complimentary non-invasive therapies not intended to replace any currently prescribed medical treatments as ordered by my physicians, nor any other medical care I have been advised to seek by them.

SoulSpark7 has informed me that they will neither diagnose, nor prescribe for any condition that I may have, nor do they make specific claims regarding results from the sessions that I receive or participate in.

I have been informed that SoulSpark7 is not licensed to practice medicine or massage therapy in the state of Utah or any other state. I have been encouraged to consult a licensed medical practitioner or licensed professional for any physical or mental complaints that I may have.

I also give my express, informed consent to be physically touched from time to time during the sessions I receive or participate in. Although not always done, I understand that physical touching may be part of the “spiritual healing art” methods employed by SoulSpark7.

I understand that I may stop treatment at any time, either during or outside of each session and that I am responsible for voicing any concerns during the session as they present themselves, so that SoulSpark7 may address them in a timely and conscientious manner.

My experiences during these sessions are confidential and subject to the usual exceptions governed by state and federal laws and regulations.

My questions have been answered to my satisfaction regarding SoulSpark7’s methods, the generalized uses of both methods, and what I might expect from my sessions.

I hereby give my express, informed consent to the foregoing and agree to hold SoulSpark7 or its affiliates harmless from any and all claims to the contrary.
